Invest smart flex is an Investment-linked Plan (ILP) which invests in ILP sub-fund(s). Investments in this plan are subject to investment risks including the possible loss of the principal amount invested. The performance of the ILP sub-fund(s) is not guaranteed and the value of the units in the ILP sub-fund(s) and the income accruing to the units, if any, may fall or rise. Past performance is not necessarily indicative of the future performance of the ILP sub-fund(s).

A product summary and product highlights sheet(s) relating to the ILP sub-fund(s) are available and may be obtained from us via <https://www.etiqa.com.sg/portfolio-funds-and-ilp-sub-funds>. A potential investor should read the product summary and product highlights sheet(s) before deciding whether to subscribe for units in the ILP sub-fund(s).

As buying a life insurance policy is a long-term commitment, an early termination of the policy usually involves high costs and the surrender value, if any, that is payable to you may be zero or less than the total premiums paid. You should seek advice from a financial adviser before deciding to purchase the policy. If you choose not to seek advice, you should consider if the policy is suitable for you. This content is for reference only and is not a contract of insurance. Full details of the policy terms and conditions can be found in the policy contract.

⁶The scenario above is for illustration purposes only.

The above illustrated values are based on illustrated investment rate of return of 8% per annum. Should the illustrated investment rate of return be 4% per annum, the illustrated policy value would be S\$169,750 at age 65. The two rates, 4% per annum and 8% per annum, are used purely for illustrative purposes only, are non-guaranteed and do not represent the upper and lower limits on the investment performance of the selected funds. The actual benefits payable will vary according to the future performance of the selected funds. Past performance or any forecasts are not necessarily indicative of the future or likely performance of your selected funds.
