Product-Specific Risks	1	
You are exposed to default risk		
Where the issuer of a fixed income security fails to make timely payments of interest and/or principal, this may cause the value of the ILP Sub-Fund to be adversely affected. Furthermore, current deposits and fixed deposits that the ILP Sub-Fund has placed with financial institutions are also exposed to credit or default risk. If the financial institutions become insolvent, the ILP Sub-Fund may suffer capital losses with regards to the capital deposited and interest foregone, causing the performance of the ILP Sub-Fund to be adversely affected.		
You are exposed to interest rate risk		
The investments of the ILP Sub-Fund in fixed income securities are subject to interest rate risk. A fixed income security's value will generally increase in value when interest rates fall and decrease in value when interest rates rise. Such movements in interest rates may negatively affect a security's value or the ILP Sub-Fund's NAV.		
• You are exposed to currency risk		
Where a Class is denominated in a different currency from the currency of denomination of the ILP Sub-Fund or where a ILP Sub-Fund has investments that are not denominated n the same currency as the ILP-Sub-Fund or a Class of the ILP Sub-Fund, the ILP Sub-Fund is exposed to currency risk.		
• You are derivatives risk		
Where a Class is denominated in a different currency from the currency of denomination of the ILP Sub-Fund or where a ILP Sub-Fund has investments that are not denominated in the same currency as the ILP Sub-Fund or a Class of the ILP Sub-Fund, the ILP Sub- Fund is exposed to currency risk.		
• You are exposed to risks relating to distributions.		
Dividend/interest income of the ILP Sub-Fund may be adversely affected by (amongst others) investee entities suffering unexpected losses and/or paying lower than expected dividends, and adverse currency exchange rate fluctuations. Distributions may also be made out of capital, which may amount to a reduction of part of your original investment. Payment of distributions (whether out of capital or otherwise) may have the effect of lowering the ILP Sub-Fund's NAV.		
You are exposed to Shariah Investment Guidelines risk.		
As the ILP Sub-Fund's investment activities will be performed in accordance with the Shariah Investment Guidelines, as a consequence, the ILP Sub-Fund may be required to undertake or dispose of investments in circumstances that are less advantageous than might otherwise be the case for other investment funds that do not seek to adhere to the Shariah Investment Guidelines.		
Other risks to your investment include company specific risk, call risk and counterparty risk.
