Policy Owners' Protection Scheme:

This policy is protected under the Policy Owners' Protection Scheme which is administered by the Singapore Deposit Insurance Corporation (SDIC). Nature and Objective of the Plan:

This is a regular Premium investment-linked insurance plan that is designed to meet Your wealth accumulation needs. This plan offers You the flexibility to receive a monthly income from your Account Value after Your selected premium payment term.

A choice of premium payment term of three (3) years, five (5) years or ten (10) years is available. Throughout the policy term, this plan will credit different types of bonus units (start-up bonus & power-up bonus) to Your policy and gives You access to various ILP sub-funds from reputable fund managers. This plan also provides protection against death of the Life insured during the policy term up to age 100; or if the Life insured becomes totally and permanently disabled (before reaching Age 65).

This is a guaranteed issuance policy which means that We issue this policy without asking for Your health declaration or medical checks at the time of application.

PLAN BENEFIT

1. Death Benefit

Upon death of the Life insured while the policy is in force, the death Benefit payable is the higher of:

- the Account value; or
- 105% of (the total Premium paid plus total Top-up(s) less any partial withdrawal(s) and monthly income payout(s));

less any amounts owing to Us.

When We make this payment, the policy ends.

Account value is the value of all the units in Your policy less any applicable fees and charges.

2. Total and Permanent Disability (TPD) Benefit

If the Life insured becomes totally and permanently disabled before reaching the Policy anniversary when he attains Age 65 while the policy is in force, this TPD Benefit shall accelerate the death Benefit payment (if any) under clause 1 above. When We make this payment, the policy ends.

Please refer to Appendix C for the Total and Permanent Disability (TPD) definition.

The maximum aggregate amount payable is Four Million Singapore Dollars (S\$4,000,000) per Life insured for all policies and riders issued by Us with TPD Benefits.

3. Monthly Income Withdrawal

At the end of Your selected premium payment term, You will have the choice to receive a monthly income from your Account value, as long as Your account value is positive.

The minimum monthly income withdrawal is S\$100 (in multiples of S\$100), and the maximum monthly income withdrawal is S\$5,000 per month, subject to availability of Your Account value. There is no limit on the number of times You can withdraw the monthly income.

Should You wish to start receiving the monthly income, or for any revision in the monthly income amount or cancellation of the monthly income payout, You will need to notify Us in writing or log in to Our customer portal (EtiqaConnect), by giving Us one (1) months' notice. Your request will take effect from the next payout date. There is no limit to the number of times monthly income withdrawal option can be exercised.

For direct crediting of the monthly income, You will be required to provide us with Your bank account details. The monthly income payout will be distributed only to Your designated bank account.

4. Start-up Bonus

While the policy is in force, a start-up bonus will be credited to Your policy for the first two (2) policy years upon receipt of the regular Premium You paid. The applicable start-up bonus rate per annum is determined based on Your Premium amount and premium payment term.

Start-up bonus payout = Start-up bonus rate X regular Premium received. Please refer to the table below for the details of the Start-up bonus amount.

Premium payment term	Annualised regular Premium (S\$)	
	Tier 1	Tier 2
3 and 5 years	10,000 to 19,999	20,000 and above
10 years	4,800 to 9,599	9,600 and above

Premium payment term	Bonus Rate (per annum)			
	Tier 1		Tier 2	
	Year 1	Year 2	Year 1	Year 2
3 years	0%	0%	4%	0%
5 years	5%	1%	10%	2%
10 years	10%	2%	20%	4%

The start-up bonus will be credited to Your policy in the form of additional units to Your Account value in accordance to the investment allocation chosen by You. The additional units will be purchased based on

the unit price on the next Valuation day. Start-up bonus is only applicable to regular Premium paid and it is not applicable to any Top-up(s).

We reserve the right to change the start-up bonus rates and premium band at any time by giving You thirty (30) days' written notice.

5. Power-up Bonus

While the policy is in force, power-up bonus will be credited to Your policy on each policy year starting from the beginning of the 11th policy year, till the end of the policy term. Power-up bonus for Top-up will be prorated according to the number of days from the Top-up effective date to the power-up bonus payout date.

Power-up bonus = Account value (exclude Top-up made within the previous policy year) X 1.91% p.a. + Top-up (made within the previous policy year) X prorated power-up bonus rate.

"Pro-rated power-up bonus rate" refers to the duration in number of days from the last effective date of top-up made in previous policy year divided by 365 days multiplied by 1.91%.

The power-up bonus will be credited to Your policy in the form of additional units to Your Account value in accordance to the investment allocation chosen by You. The additional units will be purchased based on the unit price on the next Valuation day. Power-up bonus is applicable to regular Premium paid, Ad-hoc Top-up(s) and recurring Top-up(s).

We reserve the right to change the power-up bonus at any time by giving You thirty (30) days' written notice.

6. Maturity Benefit

At the Maturity date on the Policy anniversary immediately before the Life insured attains 100 years old, if the policy is still in force, You will receive a lump sum maturity Benefit which is equivalent to the Account value, less any amounts owing to Us.

When We make this payment, the policy ends.

We will then use the net sale proceeds to buy the units of the ILP sub-fund(s) that You have instructed Us to switch into. The fund switching is based on the unit price of the applicable ILP sub-fund(s) at the date when the switching is carried out by the ILP sub-fund manager.

For more information on the dealing frequency of each ILP sub-fund, please refer to the individual fund's Product Highlights Sheet for details.

11. Premium Redirection

You may request to re-direct Your future regular basic Premium into other ILP sub fund(s) of Your choice without affecting the units in Your existing selected fund(s). Premiums can be redirected to a maximum of ten (10) ILP sub-funds at any time under Your policy. The premium redirection is subject to a minimum allocation of 10% per selected ILP sub-fund.

For specified limits for certain ILP sub-fund(s), please refer to the individual fund's Product Highlights Sheet for details.

12. Distribution of Dividend

If the ILP sub-fund(s) that You have chosen pays dividends, You have the option to either reinvest or receive payments of these dividends. The frequency of dividend distribution of the ILP sub-funds is determined by the relevant fund manager(s). You can only be entitled to dividend(s) if You are invested in the relevant ILP sub-fund(s) at the end of its dividend declaration date.

If You choose to reinvest the dividends, the relevant Fund manager(s) will reinvest these dividends on Your behalf, thereby increasing Your units in the ILP sub-fund.

If You choose to receive dividends and the ILP sub-fund(s) declares any dividend, We will distribute these dividends to You within thirty (30) days from the dividend declaration date, subject to the minimum amount

of S\$40. If the amount of dividend is less than S\$40, We will reinvest that particular dividend(s) as additional units to Your ILP sub-fund on Your behalf.

Partial withdrawal charge will apply if You choose to withdraw the reinvested dividend(s) during the premium payment term. Please refer to Fees and Charges section for more information. If You would like to withdraw the reinvested dividends, You must submit Your request and it is subject to Our approval. The minimum amount to withdraw is the lesser of either S\$500 or the full accumulated reinvested dividends in Your policy.

Should You choose to receive the dividends, You will be required to provide us with Your bank account details. The dividends payout will be distributed only to Your designated bank account.

For any changes to the dividend payout option, You will need to notify Us in advance. Should We receive Your change request within three (3) business days from the dividend payout date, We will only change Your mode of dividend from the next dividend payout.

FEES AND CHARGES

26. Policy Charge

While the policy is in force, policy charge is payable throughout the policy term. We will deduct a policy charge via unit deduction from the Account value. The deduction will start once policy commence and subsequent deduction will take place the next day after the policy monthiversary.

Policy charge = 2.30%p.a. / 12 X Account value

If there are any pending transactions, We may defer the deduction of the policy charge until the transaction is completed and We will use the unit price as of the next Valuation day. The policy charge will continue to be deducted even if the regular Premiums are not paid during the premium payment term.

We reserve the right to revise the policy charge any time at our discretion by giving You thirty (30) days' written notice.

27. Insurance Charge

We will deduct a monthly insurance charge on each policy monthiversary by cancelling units to the value equivalent to the insurance charge. The number of units to be cancelled will be in proportion to the fund value of each fund following the date on which the insurance charge is due for each month.

Insurance charge is based on the Life insured's attained Age, gender and smoking status as well as the net sum at risk. If the net sum at risk is lesser than or equal to zero, there shall be no insurance charge.

Net sum at risk = 105% of (the total Premium paid plus Top-up less withdrawal) less Account value.

Please refer to Appendix A for the insurance charge table.

28. Premium Shortfall Charge

If You miss paying any regular Premium during the premium payment term, a monthly premium shortfall charge will apply starting from the first business day after the end of the grace period of each missed regular Premium.

The premium shortfall charge will be imposed monthly until You resume the premium payment or until the end of the premium payment term, whichever is earlier. If You have incurred premium shortfall charge, You will not be required to back pay the Premium owed.

Premium shortfall charge = $X\% \times \text{annualized Premium} / 12$

Where X% is the premium shortfall charge percentage in the prevailing policy year in which the premium shortfall charge is imposed. Please refer to the table below for the premium shortfall charge percentage.

Policy Year	Premium Term		
	3	5	10
1	100%		
2	100%		
3	75%	77%	79%
4		40%	60%
5		20%	50%
6			47%
7			44%
8			21%
9			16%
10			8%

We reserve the right to revise the premium shortfall charge any time at our discretion by giving You thirty (30) days' written notice.

29. Partial Withdrawal Charge

Partial withdrawal charge is imposed during the premium payment period if You request for partial withdrawal. Partial withdrawal charge is calculated as a percentage of Your withdrawn amount.
