This policy is protected under the Policy Owners' Protection Scheme which is administered by the Singapore Deposit Insurance Corporation (SDIC). Coverage for your policy is automatic and no further action is required from you. For more information on the types of benefits that are covered under the scheme as well as the limits of coverage, where applicable, please contact us or visit the Life Insurance Association (LIA) or SDIC web-sites ([www.lia.org.sg](http://www.lia.org.sg) or [www.sdic.org.sg](http://www.sdic.org.sg)).

**Nature and Objective of the Plan:**

This is a whole of life Participating rider that accelerates the death Benefit of the Basic policy if the Life insured is diagnosed with any one of the covered critical illnesses at the early, intermediate or severe stage while the rider is in force. This rider does not have any surrender value.

This rider also provides additional coverage for Special & Juvenile conditions and top 3 Critical Illness conditions and monthly payout upon diagnosis with one of the severe stage critical illness.

This rider has a Non-participating multiplier Benefit which allows you to increase the basic Sum insured by multiplying a factor of 2 times, 3 times, 4 times or 5 times, up to the selected multiplier expiry Age of Age next birthday 66, 71, 76, 81 or 86.

This rider consists of a participating component and a non-participating component which provides the additional coverage.

**PLAN BENEFIT:**

---

**1. Multiplier Benefit**

---

The multiplier Benefit guarantees a minimum coverage before the Policy anniversary when the Life insured attains the selected multiplier expiry Age. It is computed by multiplying the Rider Sum insured by a factor selected by You.

On or after the Policy anniversary when the Life insured attains the selected multiplier expiry Age, the multiplier Benefit will reduce by 10% each Policy year for five (5) Policy years. Thereafter, the multiplier Benefit will remain the same throughout the Policy term.

The multiplier Benefit must be the same as the Basic policy.

---

## **2. Critical Illness (CI) Benefit**

---

This rider pays the CI Benefit as an advancement of the death Benefit of the Basic policy.

Upon diagnosed with one of the covered critical illnesses while the rider is in force, We will pay the higher of the multiplier Benefit or Rider sum insured and its attaching bonuses (if any).

Upon payment of the CI Benefit for an early or intermediate stage critical illness, coverage for this rider will continue with the remaining CI Benefit (if any) payable on the diagnosis of a severe stage critical illness. We will waive all future Premiums for this rider starting from the next Premium due date immediately after the date of diagnosis.

If the severe-stage critical illness diagnosed is Angioplasty & Other Invasive Treatment for Coronary Artery, We will pay 10% of the CI Benefit of this rider, subject to a maximum amount of S\$25,000 per Policy. The remaining CI Benefit (if any) will be paid on the next covered critical illness diagnosed that is not Angioplasty & Other Invasive Treatment for Coronary Artery.

If the CI benefit payable is lesser than the death Benefit of the Basic policy, the death Benefit will be reduced by the amount paid for the CI. You must continue to pay the revised Premiums to keep the Basic policy in force. If Our payment for CI Benefit is the full 100% death Benefit of the Basic policy, both the Basic policy and the CI Benefit of this rider will be terminated.

If the death Benefit of the Basic policy is reduced due to a claim for TPD benefit under the Basic policy, we will reduce the CI Benefit of this rider proportionally. The Premium of the rider will be reduced accordingly and You must continue to pay the revised Premiums to keep the rider in force.

We will only provide a maximum aggregate amount of S\$2,000,000 per Life insured for early, intermediate or severe stages of CI, subject to a cap of S\$350,000 per Life insured for early or intermediate stages of CI, for all policies and riders issued by Us with CI Benefits.

Please refer to Appendix A for the list of CIs covered and the Policy Contract for their definitions.

---

## **3. Monthly Payout Benefit**

---

If the Life insured is diagnosed with a severe stage of a covered critical illness while the rider is in force, We will pay You twelve (12) monthly payouts, starting from the Policy month immediately after the date of diagnosis. The monthly payout is equivalent to 1% of the Rider sum insured. Before Our payment, any amounts owing to us will first be deducted. This rider ends when either one of these events happens first:

- a) Death of the Life insured; or
- b) All the monthly payouts have been paid.

Our payment on the monthly payouts will not reduce the death Benefit of the Basic policy and it shall be paid to You as an additional benefit to any CI Benefit payable by Us.

---

---

If the Life insured is diagnosed with a covered condition while the rider is in force, We will pay an additional 20% of the Rider sum insured in one lump sum. Before Our payment, any amounts owing to Us will first be deducted.
