Invest future is an Investment-linked Plan (ILP) which invests in ILP sub-fund(s). Investments in this plan are subject to investment risks including the possible loss of the principal amount invested. The performance of the ILP sub-fund(s) is not guaranteed and the value of the units in the ILP sub-fund(s) and the income accruing to the units, if any, may fall or rise. Past performance is not necessarily indicative of the future performance of the ILP sub-fund(s).

A product summary and product highlights sheet(s) relating to the ILP sub-fund(s) are available and may be obtained from us via <https://www.etiqa.com.sg/portfolio-funds-and-ilp-sub-funds>. A potential investor should read the product summary and product highlights sheet(s) before deciding whether to subscribe for units in the ILP sub-fund(s).

As buying a life insurance policy is a long-term commitment, an early termination of the policy usually involves high costs and the surrender value, if any, that is payable to you may be zero or less than the total premiums paid. You should seek advice from a financial adviser before deciding to purchase the policy. If you choose not to seek advice, you should consider if the policy is suitable for you. This content is for reference only and is not a contract of insurance.

This policy is protected under the Policy Owners' Protection Scheme which is administered by the Singapore Deposit Insurance Corporation (SDIC). Coverage for your policy is automatic and no further action is required from you. For more information on the types of benefits that are covered under the scheme as well as the limits of coverage, where applicable, please contact us or visit the Life Insurance Association (LIA) or SDIC websites ([www.lia.org.sg](http://www.lia.org.sg) or [www.sdic.org.sg](http://www.sdic.org.sg)).

### How it works:

Natasha, a values-driven individual aged 40 and a non-smoker, is taking proactive steps to plan for her retirement. She enrolls for **Invest future**, a financial product that aligns with her ethical principles. By choosing a premium payment term of 20 years and monthly premium of S\$700, she is protected with a basic policy sum insured equal to the higher of 105% of net premiums<sup>5</sup> or account value.

<sup>7</sup>The scenario above is for illustration purposes only.

The above illustrated values are based on illustrated investment rate of return of 8% per annum. Should the illustrated investment rate of return be 4% per annum, the illustrated policy value would be S\$207,767 at age 65. The two rates, 4% per annum and 8% per annum, are used purely for illustrative purposes only, are non-guaranteed and do not represent the upper and lower limits on the investment performance of the selected funds. The actual benefits payable will vary according to the future performance of the selected funds. Past performance or any forecasts are not necessarily indicative of the future or likely performance of your selected funds.

<sup>1</sup>Based on the minimum premium requirement for a premium payment term of 20 years.

<sup>2</sup>Subject to applicable terms and conditions. Please refer to policy contract for details.

<sup>3</sup>Applicable to policy with 10-year premium term only.

<sup>4</sup>We reserve the right to revise the fund switch charges (if applicable) by giving 30 days' written notice.

<sup>5</sup>Net premium refers to total premium paid plus total top-up(s) less any partial withdrawal(s).

<sup>6</sup>Wakaf is an ongoing charity, a voluntary charitable endowment from one's personal belongings or wealth in the form of cash/property for pious and religious causes.
