An Investment-linked Plan (ILP) invests in ILP sub-fund(s). Investments in this plan are subject to investment risks including the possible loss of the principal amount invested. The performance of the ILP sub-fund(s) is not guaranteed and the value of the units in the ILP sub-fund(s) and the income accruing to the units, if any, may fall or rise. Past performance is not necessarily indicative of the future performance of the ILP sub-fund(s).

A product summary and product highlights sheet(s) relating to the ILP sub-fund(s) are available and may be obtained from us via <https://www.etiqa.com.sg/portfolio-funds-and-ilp-sub-funds>. A potential investor should read the product summary and product highlights sheet(s) before deciding whether to subscribe for units in the ILP sub-fund(s).

As buying a life insurance policy is a long-term commitment, an early termination of the policy usually involves high costs and the surrender value, if any, that is payable to you may be zero or less than the total premiums paid. As term plan has no savings or investment feature, there is no cash value if the policy ends or if the policy is terminated prematurely. You should seek advice from a financial adviser before deciding to purchase the policy. If you choose not to seek advice, you should consider if the policy is suitable for you.

These policies are protected under the Policy Owners' Protection Scheme which is administered by the Singapore Deposit Insurance Corporation (SDIC). Coverage for your policy is automatic and no further action is required from you. For more information on the types of benefits that are covered under the scheme as well as the limits of coverage, where applicable, please contact us or visit the Life Insurance Association (LIA) or SDIC websites (www.lia.org.sg or www.sdic.org.sg).
