

What are Pre-existing Medical Conditions?

A pre-existing medical condition refers to any illness or injury that you had before the start of your trip. This includes conditions you were aware of, or for which you received medical advice, treatment, a diagnosis, or prescription medication within the 12 months prior to your trip.

Examples of pre-existing medical conditions:

Many travel insurance policies exclude coverage related to pre-existing medical conditions while you are overseas.

This is where added protection makes a difference. With optional coverage, your medical history does not have to hold you back, so you can enjoy your travel plans with greater peace of mind.

How we support your journey

Farah, 34, lives with epilepsy and is preparing for her Umrah journey. To travel with greater confidence, she purchases Travel Takaful and includes the optional add-on for pre-existing medical conditions.

What happened:

Two days before her return flight, Farah experiences a medical episode and is taken by ambulance to a hospital for immediate treatment. She is hospitalised for three days, which requires her to extend her stay in Makkah and rebook her return flight.

How Travel Takaful helped:

With the add-on coverage in place, Travel Takaful helps cover the unexpected expenses incurred during her trip.

Total amount claimable under Travel Takaful:
S\$31,000

Trip disruption¹
S\$1,000

Overseas medical expenses:
S\$30,000

¹ After 50% co-payment.
